

WHAT'S BEHIND THE WALLS

Can you answer the following questions?

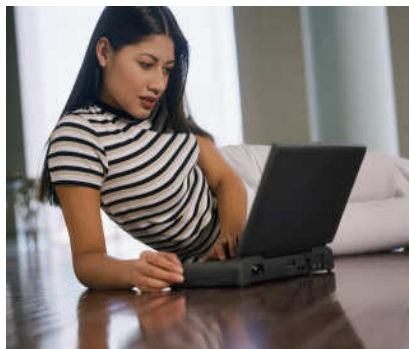

Is this home ready for my Technology?
Can I have a home network?
Can I have DSL?...VOIP?... Cable Modem?
Can I have my alarm monitored?
Can I have Cable or Satellite?

Can I have a DVR at my TV
Where Can I have music in the house?
Can I have Surround Sound?
Why are those blank plates on the wall and what do they do?

Can you tell me....

What's Behind the Walls?

*Smith and Sons is offering a Brand New Service
"Technology Fitness Assessments"*

Add value to your closing or listing with our report on what's inside the walls. Security, Communication, and Entertainment Systems all require wiring and we are the company that will let you know if the wire in

your walls will meet your needs. We cover the entire home and make an assessment of each system, providing

you with a complete technology picture of what the home has to offer your clients. We are also the company that can make all your systems work, providing you and your clients a single source solution for all your technology needs.
